

**California State Parks has completed the California Outdoor Recreation Plan (CORP) for 2008.**

Production of a CORP every five years maintains California's eligibility to participate in the federal Land and Water Conservation Fund (LWCF) program in addition to helping policymakers determine where and how funds for outdoor recreation should be allocated for State and local recreation projects.

This document provides comprehensive information on the status of statewide and regional California recreation, information about public opinions and attitudes concerning recreation, a discussion of statewide outdoor recreation issues and actions for their implementation. To read the report check out [www.parks.ca.gov/CORP](http://www.parks.ca.gov/CORP)
